INTERNAL QUALITY ASSURANCE CELL (IQAC)

ABOUT IQAC

The Internal Quality Assurance Cell (IQAC) is a vital part of higher education institutions, aiming to improve the quality of education. It operates as a voluntary system, promoting continuous improvement through the development of quality benchmarks for academic and administrative activities. The IQAC fosters a culture of quality consciousness among stakeholders, conducting periodic assessments and accreditation exercises to evaluate education quality. It also monitors and evaluates the implementation of policies and procedures, conducting internal audits to ensure compliance with regulatory requirements. The IQAC encourages faculty engagement in research, collaboration with industry partners, and integration of emerging technologies into the curriculum.

As per National Assessment and Accreditation Council (NAAC) guidelines every accredited institution should establish an Internal Quality Assurance Cell (IQAC) as a post-accreditation quality sustenance measure. Since quality enhancement is a continuous process, the IQAC becomes a part of the institution's system and works towards realization of the goals of quality enhancement and sustenance.

In RAAK College of Engineering and Technology, the Internal Quality Assurance Cell (IQAC) was established in January 2021. It has students and faculty as its members. It monitors the progress in teaching – learning and aims to achieve the Vision and Mission of the College.
